40%* of the qualification = 64 marks (32 for the period study and 32 for the British depth study).

British America, 1713-83 – Assessment:

They should study examples of such evidence and consider ways in which it could give rise to and support different interpretations. Students should understand a range of reasons why interpretations may differ. They should be aware that differences based on conclusions drawn from evidence are legitimate and can be explained.
