Take it further

To extend and develop your subject knowledge and understanding do look at resources outside of the GCSE curriculum. The resources below are not an exhaustive list. Please do discuss with the Art department anything in particular that you are interested in finding out about and we can point you in the right direction.

KS3 Art	Art and Design curriculum, we aim to introduce students to a wide range of skills and techniques that will enable them to access the curriculum, equipping them with skills and understanding in the basic concepts governing the use of different media. This is taught through first-hand experience of handling different media and materials and through demonstrations and videos. Where possible we relate projects to the work of others in order to develop the students' broad understanding of the meaning, significance and contribution of art and design within both contemporary cultures and that of the past, encouraging students to take inspiration from these sources. We aim to develop the students' ability to be able to communicate opinions about their own and others work and to be able to express ideas, concepts with growing maturity. Through the making of images and artefacts, we aim to provide the students with the means to make concrete their observations and responses to the ever-changing world in which they find themselves.
